

A GLOBE RANGE IS SO CONVENIENT

One feature you'll like is the oven thermometer. This means perfect baking and greatest fuel economy.

Then there is the key-plate lifter, that makes broiling and toasting so easy, while good cooks delight in the Crystal Malleable Glass Doors that can be fitted to any Globe Range.

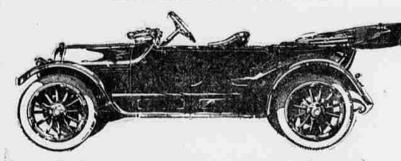

The Globe makes other ranges seem clumsy and out of date. But you really ought to see one. You'll at least come in and look, won't you?

The Globe Stove & Range Company, of Kokomo, Ind., also manufacture Globe Base Burners, Globe Soft Coal Heaters and Globe Warm Air Furnaces.

Mushroom Hunting Dangers. The advantage of rattlesnake hunting over mushroom hunting seems to be that you know the snake is poisonous. As near as can be made out there seems to be one sure way of telling the character of your find, and that was described by a foreigner who asked if gathering mushrooms was not risky: "All right, most every day. I Am "Granny" Chamberlain

Everybody's friend when they have coughs and colds and their children have croup and whooping cough.

Most everyone knows me. I have been going from home to home for nearly fifty years-always welcome, too, for I never fail in their hour of

I have helped young mothers whose babies were choking with croup, and been the comfort of parents whose children tramp to school through the wet winter weather. Many a cold and attack of bronchitis I have warded off, and thousands I have helped through the anxious moments of whooping cough. I have come to the aid of mothers and fathers when they had colds and influenza, and have been a relief to old folks suffering from bronchitis and asthma.

I have had a most varied experience; I go everywhereamong the rich and the poor, in cities and the country.

Now don't forget "Granny" Chamberlain! You will see me often now, for I am going to tell you of my experience and what can be done in your home with

bodies floating at will through space. When, by chance, they come into our atmosphere, they take fire and are consumed on account of the friction caused by their velocity which is about thirty miles per second.

Meteors are variously estimated to be from a few feet to a mile in

When they collide with our atmosphere, they become heated to a white heat. The outer molten surface flows away into a tail which is miles in length.

They often burst with violent force, giving rise to a mighty sound. Meteors are for the most part composed of a conglomeration of mineral matter, principal ly stone and iron, iron making up about 85 per cent of their mass.

It was on the evening of December 21, 1876, about 9:30 o'clock, that a meteor of giant proportions passed, from west to east, over the entire length of the Mississippi Valley, and is regarded to have been the largest of its kind of which we have any record in this country.

This Aerolite was first seen over the state of Kansas. Traveling a little to the north of east, it passed successively over Iowa, Illinois, Indiana, northern Ohio, Lake Erie New York and the New England States, being lost to view over the Atlantic Ocean.

Over Bloomington, Ill., it had become sufficiently heated to explode, and its detonation, at an estimated height of 75 miles. shook that city like an earth quake.

Passing rapidly onward, it was followed by a train of fire balls 5 miles wide and 40 miles long.

These fragments were continualy exploding, giving rise to sounds not unlike the crash of heavy artillery.

We have met a few who were eye witnesses of this distinguished visitor, and the graphic description of one must suffice; he says "I was then living in central

Wood county and on the night above stated was returning home from church on horseback, to gether with a boy friend. We saw in the west what we thought to be a bright star. It rapidly grew larger and seemed to be rising. and we soon discovered that it was approaching at great speed We dismounted quickly, and as it veered to the north, we were per mitted to see it in all of its sub lime grandeur. Our profile view as it passed us, enabled us to see the train of fire balls which were exploding in all directions. The star seemed to be in tact but was being rapidly consumed. Naturally, our hair stood on end and we said not a word, till it gradually faded away in the east. While we stood discussing the matter, the explosions began and sounded like the crack of rifles and the roar of small artillery. These explosions came from the north first, and rapidly extended away into the direction from which we had first seen the meteor. It is my opinion that the star was visible for probably one-half minute, and that the explosions were heard in four or five minutes after it had passed from sight."

A MERCILESS JUDGE.

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Perrysburg resident has withstood this sternest of all tests:

Mrs. Caroline E. Walters, Sixth and Cherry Sts., Perrysburg, says: "I had sharp pains in my back and shoulders and I could hardly get up from a chair. I was made miserable by dizzy spells and headaches. Doan's Kidney Pills gave me prompt relief. I felt like a different person, being able to sleep and eat well and having no pains or aches in my back.

A FIVE YEAR RECORD.

MORE THAN FIVE YEAR LATER Mrs. Walters said: "I don't hesitate in again recommending Doan's Kidney Pills. They permanently cured me."

There is more Catarrh in this section of the country than all other dis-eases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it prescribed local remedies, and by conone hundred dollars for any case it fails to cure.
